

### Chem 31.1

Goals: Model how class will work with Zoom meetings/attendance from this point forward. Individual quiz on acid/base chemistry

Plan:

- Introduce zoom, get everyone on zoom and start with a bellwork question in chat
- Bellwork: Give an example of how acid-base chemistry impacts your life outside of chemistry class
- Share out some of the answers in the chat
- Test compatibility with kahoot (acids and bases)

HW: read section 14.1, complete questions 8 and 9 under "Exercises"

### Chem 31.2

Goals: Review acids and bases, take sample quiz to test the ability to take quizzes over zoom

Plan:

Bellwork: rank the following in terms of most acidic to least acidic

- A)  $\text{pH} = 4.5$
- B)  $\text{pH} = 0.1$
- C)  $\text{pOH} = 7$
- D)  $\text{pOH} = 4.5$

Review answers via chat

Take sample quiz (2-3 questions) to test our ability to take assessments over zoom

HW: Read section 14.2, review for quiz tomorrow

### Chem 31.3

Goals: Complete in class quiz over zoom

HW: Read 16.2 on Galvanic cells.

Define: Galvanic cell, anode, cathode, salt bridge,
